Who to contact

Material for publication, books for review, obituaries, advertisements – the Editor
Subscriptions, change of address, etc – contact PO Box 8774, London SW7 5ZG
Late or non-arrivals, back issues – contact PO Box 8774, London SW7 5ZG

Readers are respectfully advised that the publication of material in this journal does not imply that the views and opinions expressed therein are shared by the Editor or by the Amateur Entomologists' Society or by any party other than the named author or authors.

Guidelines for Contributors

We welcome contributions on British Isles Lepidoptera, on non-British Lepidoptera where likely to be of interest to British researchers and on other groups of British Insects for which specialist English language journals do not currently exist. We accept descriptions of new species. Other subject matter may be accepted entirely at the discretion of the Editor, whose decision is final.

Please follow the format in this issue. The Editor will be pleased to assist in any way possible, especially if you are a first-time author. If in doubt – contact me! Ideally material will be compatible with Microsoft Word and will arrive via e-mail, but we will accept typescripts or *neatly* hand-written contributions for shorter Notes.

Notes are reviewed and accepted by the Editor and are especially welcomed. We aim to publish these within two issues of acceptance.

Full papers must include an Abstract and a maximum of ten Key Words and acceptance is subject to external peer-review; full papers may be returned for changes before final acceptance and we aim to publish these within three or four issues of original receipt.

Black and white photographs are welcomed. Colour photographs may be submitted but will only be used if they are deemed relevant by the Editor.

Books for review must be sent to the Editor in the first instance. We do not normally accept unsolicited reviews by third parties.

Data Protection Act, 1998

Subscribers' names, address, AES publications subscribed to and, where provided, e-mail addresses and telephone numbers, are stored on a computer database for the sole purpose of administering the publication and distribution of this journal. The information may be accessed by or sent to elected AES council members for AES business purposes, but will be used solely for the purposes of managing AES membership subscriptions and administering the Society. It will not be divulged to any third party without your permission except where the Society is legally obliged to do so. By subscribing to the *Entomologist's Record and Journal of Variation* you agree to these data storage conditions. If you object to us storing this data please let us know.
