

THE
ENTOMOLOGIST'S RECORD
AND JOURNAL OF VARIATION

A publication of The Amateur Entomologists' Society

Contents and Special Index Volume 130 (2018)

Edited by C. W. Plant

ISSN 0013-8916

THE ENTOMOLOGIST'S RECORD

AND JOURNAL OF VARIATION

World List abbreviation: *Entomologist's Rec. J. Var.*

<http://www.entrecord.com>

Published by the Amateur Entomologists' Society
UK Registered Charity number 267430

Annual subscription for individual subscribers for 2018 is £30.
For institutional and overseas rates please visit the website at www.entrecord.com

Editor

C.W. PLANT, B.Sc., F.R.E.S., F.B.N.A.
14 West Road, Bishops Stortford, Hertfordshire CM23 3QP.
Telephone: 01279 507697 E-mail: cpauk1@ntlworld.com

Webmaster: Rob Edmunds B.Sc., M.A., F.R.E.S.

Proof Reader: Graham Wenman

Special Index: Catherine Wellings and Graham Wenman

Who to contact

Material for publication, books for review, obituaries, advertisements – the Editor
ALL OTHER MATTERS (subscriptions, change of address, late or non-arrivals, back issues –
e-mail registrar@amentsoc.org or write to PO Box 8774, London SW7 5ZG

Back Issues

Volumes more than ten years old may be read at www.biodiversitylibrary.org/bibliography/8408

Readers are respectfully advised that the publication of material in this journal does not imply that the views and opinions expressed therein are shared by the Editor or by the Amateur Entomologists' Society or by any party other than the named author or authors.

Guidelines for Contributors

The Editor welcomes contributions on British Isles Lepidoptera, on non-British Lepidoptera where likely to be of interest to British researchers and on other groups of British Insects for which specialist English language journals do not currently exist. We accept descriptions of new species. Other subject matter may be accepted entirely at the discretion of the Editor, whose decision is final.

Please follow the format in this issue; if in doubt, ask the Editor. We positively encourage the use of colour photographs of insects and their habitats but their inclusion must enhance the text or serve some other useful purpose. We encourage the use of colour in the interpretation of graphs, charts etc. All images must be sent as individual separate files; please send high resolution files – do not reduce file size for ease of e-mailing. Images embedded (pasted into) word processor files cannot be used.

All papers are subject to peer-review and may be returned for changes prior to acceptance. Shorter communications and Notes are normally reviewed by the Editor but may also be sent for external review before acceptance; to reduce both cost and delay required changes to these are usually made by the Editor.

We now issue Pdf files in place of paper reprints. These are sent automatically to the first named author of Papers. Authors of Notes may request a Pdf of their contribution. Abstracts of Papers are published on our website.

Books for review must be sent to the Editor in the first instance. We do not normally accept unsolicited reviews by third parties.

The General Data Protection Regulation (GDPR)

It is the policy of this journal to include the name(s) and contact details of authors, as supplied to the Editor, as a part of their published contributions. To comply with the new regulation authors will in future be asked to confirm that they are happy with this arrangement. The Editor will maintain a list of persons who have given such consent. Where the publication of an address is considered unacceptable, a "care of" address may be substituted by the author(s). Advertisements and other non scientific material submitted for publications are also subject to the GDPR and must adhere to the published AES policy.

CONTENTS

Compiled by Colin W. Plant & Andrew Smith

1: PEER-REVIEWED PAPERS

A

- A contribution to knowledge of the Balkan Lepidoptera: new and rare Erebidae and Noctuidae for Albania, collected in 2016. *Stoyan Beshkov*, 155-172
- A contribution to knowledge of the Balkan Lepidoptera: new and rare moths for Albania, collected in 2017. *Stoyan Beshkov & Ana Nahirnić*, 215-232
- Additions and amendments to the Irish Microlepidoptera List since 2012. *Ken G. M. Bond*, 113-138

C

- (The) case of the missing Lunar Thorns – a twenty-year study of altitudinal change amongst Yorkshire's moths. *Charles H. Fletcher*, 145-154
- (A) contribution to knowledge of the Balkan Lepidoptera: new and rare Erebidae and Noctuidae for Albania, collected in 2016. *Stoyan Beshkov*, 155-172
- (A) contribution to knowledge of the Balkan Lepidoptera: new and rare moths for Albania, collected in 2017. *Stoyan Beshkov & Ana Nahirnić*, 215-232
- Contribution to the knowledge of *Zygaena* Fabricius, 1775 (Lepidoptera: Zygaenidae) of the Republic of Macedonia. *Nikola Micevski, Ana Nahirnić and Stoyan Beshkov*, 41-55

D

- Depressaria villosae* sp.nov., a new species from Portugal, Spain and Greece (Depressariidae). *Martin Corley and Peter Buchner*, 105-111

E

- Eucosma tripoliana* (Barrett, 1880) (Lep.: Tortricidae): variation in a Suffolk population and how this relates to the species' separation from *Eucosma*
- Aemulana* (Schläger, 1849). *Raymond A. Watson*, 177-187

I

- Images of vertebrate heads in moth wing patterns. *J. R. Clive Craik*, 1-14
- (The) immigration of Lepidoptera to the British Isles in 2014. *Sean P. Clancy*, 57-104

M

- Microlepidoptera Review of 2017. *A. M. Davis and G. M. Tordoff*, 281-306
- Monopis crocicapitella* (Clemens, 1859) (Lep.: Tineidae): case-bearing larvae in England found feeding on bat droppings. *R. J. Heckford and S. D. Beavan*, 233-248

N

- Natural history of Lepidoptera associated with bird nests in Mid-Wales. *D. H. Boyes*, 249-259
- Netted Carpet *Eustroma reticulatum* (D. & S., 1775), (Lep.: Geometridae) as a commodity. *E. G. Hancock*, 123-138
- (A) new species of the genus *Herrichia* Staudinger (Lepidoptera: Oecophoridae) from the island of Crete. *Ole Karsholt and Alexander Lvovsky*, 307-312

Q

Quantitative differences in catches made by two kinds of mercury-vapour bulbs used in Robinson moth traps. *Clive Craik and Andy Mcleod*, 200-213

S

(A) second contribution to the Lepidopteran fauna of Cyprus, presenting records for 48 taxa from 17 families. *Ian Barton*, 29-39

2: NOTES

A

2017 Highlights from my garden trap and the continued presence of Toadflax Brocade *Calophasia lunula* (Hufn., 1766), on my rock garden. *J. F. Burton*, 187-189

A first British record of a leaf-mine on *Photinia* Lindl. (Rosaceae). *A. G. Blunt and I. S. Thompson*, 271-272

A fourth British *Cydia interscindana* (Möschler, 1866) (Lep.: Tortricidae). *Graeme J. Smith*, 196

A new foodplant – but for what? *Graham Wenman*, 144

A note on the recognition of *Argyresthia retinella* (Zeller, 1839) (Lep.: Argyresthiidae). *Andrew King*, 121

A striking aberrant form of *Catoptria falsella* (D. & S., 1775) (Lep.: Crambidae) and a comment on published drawings of female genitalia. *František Kosorin*, 314-315

An aberrant form of *Scopula decorata* (Alphéraky, 1876) (Lep.: Geometridae) from northern Spain. *Steve J. Petty, Teresa Farino and Colin W. Plant*, 192-193

An unusual aberrant female of *Pseudochazara mniszecchii* (Brown, 1980), (Lep.: Nymphalidae: Satyrinae). *Lazaros N. Pamperis*, 138

An unusual colour of pupa in the Juniper Carpet *Thera juniperata* (Linn.) (Lep.: Geometridae). *Mark Young*, 122

An unusual pairing, in the wild, between a Meadow Brown *Maniola jurtina* (L. 1758) and a Ringlet *Aphantopus hyperantus* (L. 1758) (Nymphalidae, Satyrinae). *Barry Dickerson*, 270-271

Apodia bifractella (Duponchel, [1843]) (Lep.: Gelechiidae) new to Ireland. *Tony Bryant*, 268

B

Bee Moth *Aphomia sociella* (Linnaeus, 1758) (Lep.: Pyralidae) lekking. *Tony Bryant*, 268

C

Ceutilopha isidis (Zeller, 1867) (Lep.: Pyralidae) in Murcia, Spain and a discussion of its status in Europe. *J. Girdley, J. J. Guerrero, R. M. Rubio, M. Garre and A. S. Ortiz*, 322-324

Cinnabar *Tyria jacobaeae* (L.) (Lep.: Erebidae, Arctiinae) larvae feeding on Coltsfoot *Tussilago farfara* L. *Mark R. Shaw*, 317-318

(The) correct name for the Tyneside *Vitula* (Lep.: Pyralidae). *T. J. Tams*, 324-327

Corrigenda, 328

D

Dialectica imperialella (Zeller, 1847) (Lep.: Gracillariidae) in VC28; new to Suffolk. *Ian Barton*, 24-28

Double Line *Mythimna turca* (L.), second record for Shropshire. *Graham Wenman and Mike Shurmer*, 269-270

E

Eucosma conterminana (Guenée, 1845) (Lep.: Tortricidae) new to Ireland. *Tony Bryant and K. G. M. Bond*, 15

Extra-seasonal UK Lepidoptera Records from Autumn 2017. *Robert Homan*, 15-24

F

First Shropshire record of *Schiffermuellerina grandis* (Desvignes, 1842) (Lep. Oecophoridae). *Mike P. Shurmer*, 318-319

(The) Four-spotted Moth *Tyta luctuosa* (D. & S.), the Grizzled Skipper butterfly *Pyrgus malvae* (L.), the Emperor Moth *Saturnia pavonia* (L.) and the Oak Eggar *Lasiocampa quercus* (L.) at Werrington Brook Drain, Peterborough, in 2017. *Paul Waring*, 259-265

Further records of unseasonal moth flights in 2017. *Keith Palmer*, 189-191

H

Heart & Dart *Agrotis exclamationis* (Linnaeus, 1758) (Lep.: Noctuidae), a green-scaled aberrant. *Tony Bryant*, 199

Hydroptila simulans Mosely, 1920 (Trich.: Hydroptilidae), a caddisfly new to Northern Ireland. *James P. O'Connor and Kenneth G. M. Bond*, 193-194

L

Larva of *Epiphyas postvittana* (Walker, 1863) (Lep.: Tortricidae) feeding on catkins of Hazel *Corylus avellana*. *R. J. Heckford*, 120

M

Megalomus hirtus (L., 1761) (Neur.: Hemerobiidae) rediscovered in Aberdeenshire and investigation of a old record. *Nick A. Littlewood*, 274-276

N

Noteworthy records of second brood moths in the Isle of Wight during autumn 2017. *Sam Knill-Jones*, 28

O

(The) occurrence of *Garella musculana* (Erschov, 1874) (Lep.: Nolidae) in eastern Bulgaria. *Harry E. Beaumont*, 315-316

P

Pale Brindled Beauty *Phigalia pilosaria* (D. & S.) (Lep.: Geometridae) male sitting out bad weather. *Roy Leverton*, 214

Phyllonorycter pastorella (Zeller, 1846) (Lep.: Gracillariidae) in Kent. *Robert Homan*, 266-267

Pieris napi (L.) and *P. rapae* (L.) (Lep.: Pieridae) mud-puddling in Baden-Württemberg, Germany. *J. F. Burton*, 112

R

(The) rapid spread of *Stigmella aceris* (Frey, 1857) (Lep.: Nepticulidae) in four English Vice-counties. *Andy Banthorpe*, 139-143

Request for loan of high-wattage MV bulbs for research. *Clive Craik*, 172

S

- Silver-ground Carpet *Xanthorhoe montanata* (D. & S.) (Lep.: Geometridae) male with everted coremata during wing drying. *Roy Leverton*, 195
- Small Copper *Lycaena phlaeas* (L.) (Lep.: Lycaenidae) male refound 23 days later. *Roy Leverton*, 313-314
- Small Phoenix *Ecliptopera silaceata* (D. & S.) Lep.: Geometridae: A striking variant from Mid Perthshire (VC 88). *David Bryant*, 273
- Surge of dispersing rare and common Lepidoptera in South Cambridgeshire during the hot summer of 2018. *Chris Tyler-Smith and Yali Xue*, 320-322
- Symphorobius klapaleki* Zeleny (Neur.: Hemerobiidae) in Milton Keynes. *Mark G. Telfer*, 197-198

T

- The correct name for the Tyneside *Vitula* (Lep.: Pyralidae). *T. J. Tams*, 324-327
- The Four-spotted Moth *Tyta luctuosa* (D. & S.), the Grizzled Skipper butterfly *Pyrgus malvae* (L.), the Emperor Moth *Saturnia pavonia* (L.) and the Oak Eggar *Lasiocampa quercus* (L.) at Werrington Brook Drain, Peterborough, in 2017. *Paul Waring*, 259-265
- The occurrence of *Garella musculana* (Erschov, 1874) (Lep.: Nolidae) in eastern Bulgaria. *Harry E. Beaumont*, 315-316
- The rapid spread of *Stigmella aceris* (Frey, 1857) (Lep.: Nepticulidae) in four English Vice-counties. *Andy Banthorpe*, 139-143
- Toadflax Brocade *Calophasia lunula* (Hufn.) (Lep.: Noctuidae) at March, Cambridgeshire. *Paul Waring*, 189

W

- Webb's Wainscot *Globia sparganii* (Esp.) (Lep.: Noctuidae) – new sites in Northamptonshire, Bedfordshire and Lincolnshire. *Paul Waring & Dee Shore*, 277-278

3: BOOK REVIEWS

- Amazing Arachnids*, 279
- Butterflies of Hertfordshire and Middlesex*, 55-56
- Butterfly Gardening: The North American Butterfly Association Guide*, 279
- Field Guide to the Smaller Moths of Great Britain and Ireland*, 328
- Garden Insects of North America*, 56
- Leaf Beetles*, 176
- Pug Moths of North-west England: A Guide on Identification and Distribution in Cheshire, Lancashire and Cumbria*, 174-175

4: OBITUARIES

- Cedric William Nelson **Holmes**, 173

5: ADDENDA & CORRIGENDA

- Corrigenda, 328

6: CONTRIBUTORS

Page number entries **in bold** refer to peer-reviewed papers; entries in ordinary type refer to Notes and other communications that have been refereed internally by the Editor and his colleagues. Where an author is not the first named of multiple authors, page number entry is printed in *italic type*.

NEW INDEXER REQUIRED

We are looking for a new person to compile the Special Index from the 2019 volume onwards. An in-depth taxonomic expertise is not necessary, as the Editor will give instructions, but you will need access to a computer and an e-mail address and be available to deliver and discuss the Index, approximately in the gap between Christmas and the New Year. The indexer's sole task is to compile the alphabetical list of species that is the "SPECIAL INDEX"; the "Contents" section, comprising the first seven pages of this document, are produced by the Editor. The task is voluntary, though you do get a free subscription to the journal. Please contact the Editor direct at cpauk1@ntlworld.com, giving a telephone number for him to call you on.

SPECIAL INDEX

Compiled by Catherine Wellings & Graham Wenman

Newly described taxa are indicated in **bold type**.

Taxa new to, or newly recognised in, the British Isles and mentioned first
in this volume are denoted by an asterisk.
